

OREGON 303(d) Program

Non-Responsive

Ongoing Litigation (TMDLs)

•
•

Non-Responsive

- **CZARA Settlement Agreement** Actions - NWEA (2011 – present) – Approval of the CZARA program is linked to the State's Coastal Nonpoint Program. This program speaks directly to nonpoint source programs and their effectiveness.
 - DEQ, ODF, ODA, DLCD, and other state agencies have been meeting to address deficiencies in the forestry, on-site disposal systems, new development and ag.

- There appears to be progress in these areas,

Major Program Challenges

- **303(d) List**

Non-Responsive

- Because of EPA's and NOAA's intent to disapprove the State's CZARA program and potentially Oregon TMDL litigation,

Ex. 5 - Deliberative

Ex. 5 - Deliberative

Noteworthy TMDLs Under Development

- **Midcoast TMDL** – First enhanced or “implementation-ready” TMDL for bacteria, sediment, and possibly temperature. Significant effort by state and stakeholders

Direction of 303(d) Program in the next 3-5 years

Non-Responsive

Non-Responsive

- Oregon CZARA Settlement Agreement actions and negotiations
 - Rulemaking on forestry for increased riparian areas for small and medium fish-bearing streams
 - Ongoing conversations with ODA and ODF for improved implementation

Non-Responsive

Potential Resource Needs

- **Non-Responsive**
- TMDL – financial resources for a TMDL that would meet Settlement Agreement objectives for refined allocations and tools to enable more and timely implementation especially for NPS.
